

BLUETOOTH 4.0 FTMS
Connects to 3rd Party Apps

The CVC800 Vertical Climber combines a natural 12" arched stepping action and narrow 2" pedal spacing (Q-Factor) with an effective upper body workout in a compact space saving design. It is a fantastic way to get a heart-healthy, total body workout. With 6 programs, 20 levels of resistance, and multiple hand grip positions, users of all types can customize their workout to their fitness level.

CVC800 VERTICAL CLIMBER

- Full body workout in a compact space-saving design
- Sandblasted electroplated steel arched step-rails with 12" step height for a natural motion
- Multiple padded hand grip positions for maximum workout variety
- Center mounted stationary handlebars for added safety
- Large 23 pound flywheel with 20 levels of smooth magnetic resistance
- Oversized (8.4" wide x 16.5" long) padded foot pedals with 2" Q-Factor
- Shielded concave roller wheels system with commercial bearings
